Management Discussion and Analysis

OPERATIONS REVIEW

For the six months ended 30 September 2017, the Group was principally engaged in sourcing and sale of metal minerals and related industrial materials, production and sale of industrial products and production and sale of utilities.

The Group had no significant material acquisitions or disposals during the six months ended 30 September 2017.

Revenue and Gross Profit

During the period under review, the Group recorded a significant increase in revenue, from HK\$520,127,000 for the six months ended 30 September 2016 to HK\$1,017,601,000 for the six months ended 30 September 2017, representing increase of 95.6% as compared to the corresponding period last year. The Group's gross profit also increased by 171.8% from HK\$44,178,000 for the six months ended 30 September 2016 to HK\$120,087,000 for the six months ended 30 September 2017.

The increase in revenue and gross profit was mainly attributable to the significant improvement of our sourcing and sale of metal minerals and related industrial materials business during the period under review. The Group management has devoted tremendous effort to restore the aforementioned business back to the right track by monitoring the market changes and communicating closely with our customers and suppliers to understand their needs. Together with the support from our principal bankers, we have recorded the sound revenue and gross profit for the six months ended 30 September 2017. During the period under review, this segment reported a segment revenue of HK\$908,003,000 (30 September 2016: HK\$444,632,000) and a segment profit of HK\$110,626,000 (30 September 2016: HK\$21,263,000), representing increase of 104.2% and 420.3% compared to the corresponding period last year.

For the production and sale of industrial products business under 寧夏華夏環保資源綜合利用有限公司 (literally translated as Ningxia Huaxia Integrated Waste Recycling Company Limited) (the "Waste Recycling Company"), we have recorded the stable segment revenue of HK\$59,617,000 (30 September 2016: HK\$60,731,000) and there was no material change of the Waste Recycling Company revenue when compared with the corresponding period last year. Nonetheless, this segment reported a decrease in its segment profit, from HK\$18,623,000 for the six months ended 30 September 2016 to HK\$9,359,000 for the six months ended 30 September 2017. The decrease in segment profit was mainly attributable to the additional safety maintenance expenses incurred in the period under review. The management will continue to pursue the growth plan of this segment and optimize the operations by exploring the initiation of new technologies and expanding the production scale.

Management Discussion and Analysis

For the production and sale of utilities business under 寧夏天元發電有限公司 (literally translated as Ningxia Tianyuan Power Generation Company Limited) (the “Power Company”), we have recorded the segment revenue of HK\$49,981,000 (30 September 2016: HK\$14,534,000), representing increase of 243.9% compared to the corresponding period last year. The Power Company commenced its operation in August 2016 and as the above segment revenue for the six months ended 30 September 2016 only represented two month’s time, this segment therefore recorded a significant increase in segment revenue for the six months ended 30 September 2017 compared to the corresponding period last year. The period under review (i.e. six months ended 30 September 2017) was the slack season for the Power Company as its profit was mainly derived from the provision of steam which the demand is used to be low in the summer time. Compared with the slight segment profit of HK\$191,000 made by the Power Company for the six months ended 30 September 2016, this segment reported a segment loss of HK\$3,230,000 for the six months ended 30 September 2017. During the period under review, more machines have been deployed and operated by the Power Company, which led to the relatively higher depreciation portion for the six months ended 30 September 2017 compared to the corresponding period last year. Following the increased demand and the improved operational efficiency in the second half of the financial year, the management expect a greater contribution from this segment in the full financial year as a whole.

Administrative Expenses

Administrative expenses primarily include staff costs, general administrative expenses, exchange loss, depreciation and amortization. For the six months ended 30 September 2017, the Group recorded the administrative expenses of HK\$54,511,000 (30 September 2016: HK\$39,351,000), representing increase of 38.5% compared to the corresponding period last year. The increase in administrative expenses was mainly due to the fair value loss on derivative financial instruments that were used to mitigate the foreign currency risk of certain monetary assets and liabilities of the Group.

Other Income

For the six months ended 30 September 2017, the Group recorded the other income of HK\$45,266,000 (30 September 2016: HK\$14,365,000), representing increase of 215.1% compared to the corresponding period last year. The increase in other income was mainly attributable to the net foreign exchange gain during the period under review. The foreign exchange gain recorded was due to the fluctuation of exchange rate of various foreign currencies mainly related to Renminbi and the United States dollars, mostly arising from purchase transactions conducted with overseas suppliers in foreign currencies and sales transactions with Mainland customers in Renminbi.

Finance Costs

Finance costs significantly decreased by HK\$33,425,000, or 76.3% from HK\$43,805,000 for the six months ended 30 September 2016 to HK\$10,380,000 for the six months ended 30 September 2017. The significant decrease of finance costs was mainly due to the repayment of bank loan in August 2016, which has substantially reduced the financial burden of the Group. The Group management will carefully monitor the Group’s capital structure and utilize the financial resources to meet its ongoing operational requirements and business expansion.

Management Discussion and Analysis

Profit/(loss) For The Period

During the period under review, we recorded a net profit of HK\$77,681,000 as a result of the decrease in finance costs and the substantial increase in revenue and gross profit as compared to the net loss of HK\$34,189,000 in the previous period.

The profit attributable to owners of the Company for the six months ended 30 September 2017 amounted to HK\$77,547,000 whereas a comparable loss of HK\$33,567,000 was recorded in the previous period. This represented the earnings per share of HK0.368 cent for the six months ended 30 September 2017, whereas a comparable loss per share of HK0.163 cent was recorded in the previous period.

FINANCIAL REVIEW

Liquidity, Financial Resources and Capital Structure

The Group financed its operations mainly by cash generated from its business activities and credit facilities provided by banks. As at 30 September 2017, the Group had current assets of HK\$2,307,936,000 (31 March 2017: HK\$1,603,255,000), comprising cash and bank balances of HK\$122,332,000 together with HK\$4,375,000 restricted bank deposits for trade facilities granted by banks (31 March 2017: HK\$15,165,000 with HK\$7,547,000 restricted bank deposits).

The Group's current ratio, calculated based on current assets of HK\$2,307,936,000 (31 March 2017: HK\$1,603,255,000) over current liabilities of HK\$2,099,986,000 (31 March 2017: HK\$1,493,013,000), was at a healthy level of 1.10 (31 March 2017: 1.07).

The trade payables terms of the Group's sourcing and sale of metal minerals and related industrial materials business was mainly by letter of credit. As at 30 September 2017, the Group's trade payables and bills payables amounted to HK\$149,304,000 and HK\$766,411,000 respectively (31 March 2017: HK\$304,426,000 and HK\$642,984,000); restricted bank deposits amounted to HK\$4,375,000 (31 March 2017: HK\$7,547,000); trade receivables and bills receivables amounted to HK\$221,973,000 and HK\$1,897,018,000 respectively (31 March 2017: HK\$447,911,000 and HK\$1,043,584,000). The credit risk on bills receivable is at a low level as such amounts are due by banks with good reputation.

As at 30 September 2017, the Group's equity attributable to owners of the Company increased to HK\$480,583,000 (31 March 2017: HK\$379,253,000). The increase in equity attributable to owners of the Company was mainly due to the total comprehensive income recorded by the Group during the period.

The Group's gearing ratio, calculated based on total borrowings of HK\$1,034,484,000 (31 March 2017: HK\$414,080,000) divided by equity attributable to owners of the Company plus total borrowings of HK\$1,515,067,000 (31 March 2017: HK\$793,333,000), was at 68% (31 March 2017: 52%).

Management Discussion and Analysis

During the period under review, the Group continued to implement a prudent financial management policy to protect the shareholders' interest of the Group. With the amount of liquid assets on hand together with advances and credit facilities granted by banks, the management will keep exploring the feasibility of carrying out certain financing activities, with the support from financial and securities institutions and professional advisors, to meet its ongoing operational requirements and business expansions.

Foreign Currency Management

The monetary assets and liabilities as well as business transactions of the Group are mainly carried and conducted in Hong Kong dollars, Renminbi and United States dollars. The Group maintains a strategy in its foreign currency risk management, primarily by including the estimated exchange differences on currency exposure in our pricing of metal minerals trade to minimize the impact of foreign exchange risk on the Group's profit. The Group has entered into forward foreign exchange contracts to hedge against the Group's currency exposure. The Group thus believes the current level of bank balances, certain receivables and payables denominated in Renminbi and United States dollars expose us to a manageable foreign currency risk. The management is paying vigilant attention to the fluctuation of Renminbi and closely monitor the foreign currency exposure. The Group will further consider using any appropriate financial derivatives to hedge against the Group's currency risk and manage its exposure.

Borrowings and Pledge of Assets

As at 30 September 2017, the Group had bank advances for discounted bills of HK\$1,034,484,000 (31 March 2017: HK\$414,080,000) which were secured by the Group's certain bills receivables.

Restricted Bank Deposits

As at 30 September 2017, restricted bank deposits in the amount of HK\$4,375,000 (31 March 2017: HK\$7,547,000) mainly referred to the security deposit placed at designated bank accounts to secure the trade facilities and bills payables of the Group.

Capital Commitment

As at 30 September 2017, the Group had capital commitments of RMB7,675,000 (equivalent to approximately HK\$9,010,000) (31 March 2017: RMB11,811,000, equivalent to approximately HK\$13,323,000) mainly for acquisition of machineries, equipment and related installation works for the Power Company, a wholly owned subsidiary of the Company.

Contingent Liabilities

As at 30 September 2017, the Group had no material contingent liabilities (31 March 2017: nil).

Event After The Reporting Period

The Group had no significant events occurred after the end of the reporting period.

Management Discussion and Analysis

EMPLOYEES AND REMUNERATION POLICY

As at 30 September 2017, the Group had a total of about 311 employees and directors (2016: 299). The Group's staff costs, including directors' remuneration, amounted to HK\$29,374,000 (2016: HK\$22,099,000). Remuneration packages for employees and directors are structured by reference to market terms and individual competence, performance and experience. Benefits plans maintained by the Group include provident fund scheme, medical insurance and discretionary bonuses.

PROSPECTS

Looking ahead to the second half of 2017, the Group expects the overall economy will maintain momentum, which will bode well for the sale of metal minerals and the output of the Waste Recycling Company and the Power Company in Ningxia.

For everlasting development of the Group, in addition to its existing operations, the Group will focus on clean energy, energy-saving and environmental protection businesses. This is consistent with the new Chinese company name “新源萬恒控股有限公司” resolved to be adopted as the secondary name of the Company at its 2017 annual general meeting.

The Group will take advantage of its financing capability as a listed company in an effort to explore clean energy, energy-saving and environmental protection projects with investment value in China and other countries along the “Belt and Road”. The Group will consider investment in and operation of projects such as photovoltaic, wind energy, natural gas and hydropower in a holistic manner to facilitate the development of and transition to clean energy. The aim is to become a leading investor, operator and service provider in the area of clean energy to widen the income stream and usher in additional business opportunities for the Group, laying the foundation for the Group's future growth and maximising shareholders' return.

The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2017 annual financial statements. This condensed consolidated financial statements do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs").

The financial information relating to the financial year ended 31 March 2017 that is included in the condensed consolidated financial statements as being previously reported information does not constitute the Company's statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 March 2017 are available in the Company's registered office. The auditor has expressed an unqualified opinion on those financial statements in their report dated 23 June 2017.

Notes to the Condensed Consolidated Financial Statements

For the six months ended 30 September 2017

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

The HKICPA has issued a number of amendments to HKFRSs that are first effective for the current accounting period of the Group. Of these, the following amendments are relevant to the Group:

Amendments to HKFRSs	Annual Improvements to HKFRSs 2014-2016 Cycle
Amendments to HKAS 7	Statement of Cash Flows: Disclosure Initiative
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses

The Group has not applied any new HKFRSs that is not yet effective for the current accounting period. The application of the amendments to HKFRSs in the current period has had no material impact on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in this condensed consolidated financial statements.

4. REVENUE AND SEGMENT REPORTING

Notes to the Condensed Consolidated Financial Statements

For the six months ended 30 September 2017

4. REVENUE AND SEGMENT REPORTING (continued)

b) Segment reporting

The Group manages its businesses by divisions, which are organised by business lines.

In a manner consistent with the way in which information is reported internally to the Group's chief executive officer (the chief operating decision maker) for the purposes of resources allocation and performance assessment, the Group has presented the following four reportable segments.

- i) Sourcing and sale of metal minerals and related industrial materials;
- ii) Production and sale of industrial products;
- iii) Production and sale of utilities; and
- iv) Others

Others segment represents business activities and operating segments not separately reported, including provision of logistics services and sale of electrical and electronic consumer products. During the six months ended 30 September 2016, the operation of sale of electrical and electronic consumer products segment was disposed.

– Origination and reversal of temporary differences	–	43
Total	18,529	4,741

Notes:

- (i) The provision for Hong Kong Profits Tax for the six months ended 30 September 2017 is calculated at 16.5% of estimated assessable profits.

No Hong Kong Profits Tax had been provided as the Group had no assessable profits for the six months ended 30 September 2016.

- (ii) PRC subsidiaries are subject to PRC EIT at 25% (2016: 25%).

According to a joint circular of the Ministry of Finance and State Administration of Taxation, Cai Shui 2008 No. 1, only the profits earned by foreign-investment enterprise prior to 1 January 2008, when distributed to foreign investors, can be grandfathered and exempted from withholding tax. Dividend distributed out of the profits generated thereafter shall be subject to the EIT at 5% or 10% and withheld by PRC entities.

- (iii) The Group is not subject to any taxation under the jurisdiction of Bermuda, Cayman Islands, Samoa and the British Virgin Islands for the six months ended 30 September 2017 and 2016.

8. DIVIDENDS

The Board does not recommend the payment of an interim dividend for the six months ended 30 September 2017 (2016: Nil).

Notes to the Condensed Consolidated Financial Statements

For the six months ended 30 September 2017

9. EARNINGS/(LOSS) PER SHARE

a) Basic earnings/(loss) per share

Basic earnings/(loss) per share is calculated by dividing the profit/(loss) for the period attributable to owners of the Company by the weighted average number of ordinary shares in issue during the period.

	Six months ended 30 September	
	2017 (unaudited)	2016 (unaudited)
Earnings/(loss)		
Profit/(loss) for the period attributable to owners of the Company (HK\$'000)	77,547	(33,567)
Number of shares		
Weighted average number of ordinary shares in issue	21,084,072,140	20,647,405,473
Basic earnings/(loss) per share (HK cent per share)	0.368	(0.163)

b) Diluted earnings/(loss) per share

For the six months ended 30 September 2017

As there is no potential ordinary shares outstanding during the six months ended 30 September 2017, the diluted earnings per share for the six months ended 30 September 2017 is the same as the basic earnings per share.

For the six months ended 30 September 2016

Diluted loss per share for the six months ended 30 September 2016 is the same as the basic loss per share because the share options outstanding during the period have an anti-dilutive effect.

15. FINANCIAL INSTRUMENTS (continued)

b) Fair value measurement

(i) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13 *Fair Value Measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, that is, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs, that is, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

Derivative financial instruments:								
- Forward foreign exchange contracts	38,408	-	38,408	-	8,647	-	8,647	-

During the six months ended 30 September 2017 and 2016, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

The fair value of forward foreign exchange contracts in Level 2 is determined by discounting the contractual forward price and deducting the current spot rate. There is no significant unobservable inputs involved in the measurement of fair values.
